

The Philippine Environment Partnership Program (PEPP):

**Recognizing Industries with Superior
Environmental Performance**

December 2011

Philippine Environment Partnership Program

The PEPP, pursuant to DENR Administrative Order 2003-14 is a DENR partnership program with industries, in cooperation with the other environment-related agencies, aimed to support industry self-regulation towards improved environmental performance.

Objectives:

- To promote mandatory self-monitoring and compliance with environmental standards and to encourage voluntary self-regulation.
- To provide incentives and package of assistance to establishments particularly small and medium enterprises (SMEs) to achieve pollution prevention and cleaner production process.
- To build or enhance the capability of establishments and/or their associations on self-regulation.
- To strengthen the capability of the DENR-EMB and other environmental agencies in implementing the PEPP towards self regulation.

PEPP “Tracks”

There are two tracks or classification of companies under the PEPP.

TRACK 1 - Companies going beyond compliance and are driven by competitiveness, image and supply chain requirements to improve performance (i.e., large companies)

TRACK 2 - Companies that are currently unable to comply with regulations, and are driven by survival needs (mostly SMEs)

How to qualify for “Track 1”

Track 1 industries are large companies that go beyond compliance and are driven by competitiveness, image and supply chain requirements to improve performance.

Criteria

- No case(s) filed with the Pollution Adjudication Board for three years prior to the date of application
- Full compliance with all applicable environmental laws, rules and regulations
- Proven record of superior environmental performance

Regulatory Privileges

1. Relaxation of reportorial requirements
 - Frequency of submission
 - Consolidation
2. Simplified requirements for securing Environmental Compliance Certificate for an expansion project
3. High profile recognition award with DENR Official Seal of Approval
