

## Review-Workshop on the Revision and Finalization of PEPP Policy and Guidelines

The Environmental Management Bureau of the Department of Environment and Natural Resources (EMB-DENR) through the Philippine Environment Partnership Program (PEPP) conducted a Review-Workshop on the Revision and Finalization of PEPP Policy and its Supplemental Guidelines.

This activity was held last 08-11 November 2016 at the NDN Hotel in Sto. Tomas, Batangas. It was participated in by the PEPP Focal Persons from EMB Regional Offices, the members of the PEPP-Technical Evaluation Committee and PEPP staff.

One of the main activities of the workshop is to present and discuss with the participants the revised draft PEPP DAO and Supplemental Guidelines to gather their suggestions and

inputs for improvement of the policy and guidelines. Caseworks for Track 1 and Track 2 Categories were conducted after the discussions. For this activity, the participants were divided into four (4) groups. Each group was tasked to evaluate an establishment if they are qualified under the Track 1 Category using the proposed Environmental Performance Rating (EPR) worksheet. To simulate activities under Track 2, the groups were tasked to prepare an Environmental Management Plan (EMP) for establishments that did not qualify under the Track 1 casework in order for them to attain environmental compliance.
